Thank you for being a valued client of Jeri Evans Nutrition, Inc.

For those that have not been in since **2008** we have a very special offer. You will receive **\$25 off one Colon Hydrotherapy or Nutrition session. When you bring a friend they will get \$20 off.** Remember to bring this letter with you and let us know the name of your friend.

By the way, Jeri **no longer requires a prescription** from your doctor for Colon Hydrotherapy unless there is a medical condition that is contraindicated. New clients can get a Colon Hydrotherapy session without the Nutrition Consultation.

In the past year Jeri Evans Nutrition, Inc. has made some great changes to the program. She is personally attending to all Colon Hydrotherapy Sessions as well as Nutrition Consultations. **You will be happy to know that the price of the Nutrition Consultation is greatly reduced, giving you a 30% to 50% savings.**

**Our office is open for appointments on Tuesday, Thursday, Friday and Saturday.** The receptionist will be glad to assist you with appointments as well as supplement orders.

**The Jeri Evans Basic Detox Plan is complimentary when you receive a Colon Hydrotherapy session.** This plan is mainly designed for people who want to reduce toxic waste, clearing the kidneys, liver, gallbladder and colon by eating good wholesome food and drinking liquids. If you would like a more personal approach I would be glad to design a supplement protocol free of charge.

**Jeri is also pleased to announce that she now works with Dr. Theresa Dale's Homeopathic Hormones.** Homeopathic hormones are non-toxic and assist the body in making their own hormones, unlike synthetic and bio-identical hormones. Homeopathic Hormones greatly improve hot flashes, brain function and energy.
